Future and Other Business:

Committee members discussed suggested edits to the award process for the 2021-2022 academic award cycle to be discussed with Academic Works and Business Center, i.e. increased visibility to necessary information within Academic Works for reviewers, and the possibility for greater committee discretion. The committee also discussed the feasibility of creating scholarship campaigns to increase the number of qualified applicants for scholarships where applicants are lacking.

Donna thanked all committee members for their dedication and hard work, with a special thank you to Lisha Long and Barbara Townley with the Undergraduate Programs Office for their assistance with applicant review.
